# IGUANA CIRCO FREESTANDING

A child's drawing of the sun.

Inspired by a child's drawing, the Iguana Circo is an interpretation of the brightly shining sun, transformed into a fully functional work of art. Iguana has the essential, natural yet light hearted touch that creates a feeling of real warmth in its modern design. It's heating straight from the soul. Iguana Circo was the first "sun radiator". Available as a wall model, freestanding or to assemble around architectural columns.

# IGUANA CIRCO

## DIMENSIONS (in cm)

### FREESTANDING

### PILLAR COVER

Connection set included

Ø	E	Ø Z
27.8	7.5	11.0
31.3	9.4	12.5
34.8	11.3	16.0

## DELIVERY

Connection set with thermostatic valve, lockshield, 4 chrome-plated air vents G1/8" and sleeve couplings M24 included.

Circo freestanding:

- Iguana Circo in 2 parts, to be mounted around the suspension column, including all parts for hydraulic connection
- support with suspension column and guards with opening for the TRV head

Circo pillar cover:

- Iguana Circo in 2 parts, including all parts for hydraulic connection and guards with opening for the TRV head
- suspension brackets for mounting around column

## COLOURS

Environmentally friendly, scratch-resistant, high UV resistant powder coating.

Standard colours:

- traffic white RAL 9016 (333), smooth satin matt
  - sandblast grey (001), fine texture metallic
- Other colours: see colour chart

## CONNECTION

To guarantee the output of the Iguana models and to limit the pressure drop, Jaga recommends the use of 15/1 minimum diameter pipes.

### Central connection

The opening for the TRV head in the guard is on the left /CL. If a right hand flow is required please amend the code suffix using /CR.

Position flow and return pipe.

### Sleeve couplings M24

see "Connection sets and Valves" (included in the price).

### Thermostatic head

(not included in the price).
